Invacare Canada - Carroll® Homecare Beds

With unsurpassed style, comfort and quality, Carroll® Healthcare's Homecare bed has earned the reputation as the bed that is most comfortable for everyone. Users and caregivers appreciate the Homecare bed's wide range of height adjustments and easy-to-use controls. With multiple headboard and footboard styles to choose from, combined with an attractive frame, the Homecare bed fits beautifully into any home setting.

Detachable Mattress Deck

The only bed surface with a 20-year warranty. This fibre-composite deck will never rust or tear bedding. The composite material takes on the temperature of the mattress that it is resting on, preventing condensation build-up which usually occurs on most metal decks. The flat-pan design makes the deck extremely easy to clean, while increasing the life of the mattress by providing full and even support.

Two-Piece Frame Construction

Carroll's unique two-piece frame is designed for convenient delivery and easy maintenance. It takes only minutes to assemble.

Hand Controls and Lock-Outs

The Homecare bed's 6-function electric Hand Control has bright, universal symbols which allows the user and caregivers to easily operate the controls of the bed. The Hand Control holster conveniently fastens the Hand Control to the bedrail for easy access to both bedrail positions. A linen clip is also available to attach the Hand Control to bed linens. The Homecare bed also comes with a standard lock-out feature that restricts the hi-lo function of the Hand Control.

Restraint-Free Assist Rail™

Designed with the user in mind, Carroll Healthcare's patented Assist Rail offers assistance without restraints. The rail provides a safe resting environment and when the rail is not required, it moves easily out of the way with a quick button release. This provides caregivers with unobstructed access to the user. The rail also serves as a stable assist device, making it very easy to get into and out of bed.

Central Immobilization System

The Central Immobilization System raises the bed's casters off the floor. The bed is immobilized throughout its entire height range, providing additional stability for the user and caregiver.

Homecare Bed Specifications

Sleep Surface - Deck Length	80"
Overall Length	88"
Sleep Surface Deck to Floor - Low Position	13 1/2"

Overall Width (with Rails)	41"
Underbed Clearance on Standard 3" Castors	9 3/8"
Recommended Weight Capacity	450 lbs.
Recommended Mattress Thickness	6"

The Thera-Max-HFS series offers three mattresses that target specific patient risk levels. Designed and engineered in collaboration with leading clinical specialists, this mattress series addresses low-risk, moderate-risk and high-risk patients effectively, yet affordably.

Safe Guard Technology

The Supreme, Marquis and Heel Float System Mattresses are available with optional 8" high raised-side-bolsters to ensure safety. Constructed with high-density foam, the raised-side-bolsters enhance the mattress perimeters and create a cradle effect so that if a user rolls close to the mattress edge, they are protected from falling. The lowered padded openings make transfers into and out of the bed easy and safe.

Fusion Cover

A pressure reduction mattress that reduces pressure points on the body. Our Fusion cover is a highly durable fabric, resistant to stains and is washable with soap and water. The cover's soft surface is anti-static, non-allergenic and non-irritating. This cover also acts as a permanent fluid barrier exterior, effective at combating bacterial and fungal growth.

Nylon Cover

The Nylon cover is a durable water and stain resistant fabric that is extremely easy to clean and care for. With a rubberized lining, it is an effective agent against both bacterial and fungal growth, providing greater hygiene protection.

Base

Invacare's Fusion and Nylon covers are both equipped with a PVC non-slip base that easily wipes clean with just soap and water. This durable base has a 360-degree vinyl zipper making it extremely easy to interchange or replace.

Marquis Mattress Low-Risk Patient

Preventative, pressure reduction mattress that uses three-layer construction to protect the delicate and sensitive heel area. It evenly distributes body weight which improves mattress wear and provides support during bed transfers.

Supreme Mattress Moderate-Risk Patient

A pressure reduction mattress that improves comfort and evenly distributes body weight across its tri-zone foundation.

Heel Float System Mattress High-Risk Patient

A superior pressure reduction mattress that combines tri-zone construction with visco-elastic technology to significantly reduce pressure points.

*** The Marquis, Supreme and Heel Float System Mattresses are available from Invacare Canada with a width of 35" and length of 80".**

A good night's sleep is an essential part of living a healthy lifestyle. For years chiropractors and medical professionals have stressed the importance of proper spine alignment and back support during sleep. Reduced mattress pressure on the body and proper body contouring are key ingredients in experiencing a deep, relaxing, uninterrupted sleep.

Thera Care uses visco-elastic foam technology developed by NASA to mold and contour to the warmth and weight of the body. A completely breathable material, visco-elastic foam allows air to circulate within the mattress, reducing pressure points and tossing and turning. Thera Care's soft polar fleece cover is completely launderable eliminating the need for a mattress pad. A zipper allows for easy removal when cleaning.

Therapeutic Support Mattress

Twin 38" W x 80" L x 8" H

- ~ Recommended by Chiropractors
- ~ Provides maximum pressure relief
- ~ Body contouring support
- ~ Creates proper spine alignment
- ~ Breathable
- ~ Heat and weight sensitive
- ~ Eliminates tossing and turning
- ~ Improves blood circulation

Carroll Beds Available Head and Foot Boards

Carroll Homecare beds come with your choice of four (4) head and foot board styles. The four options available are the Rectangular, Villa, Traditional and Canadiana. All four boards come with your choice of finishes.
